

Cayden Clemmer

Alexandria, VA | clemmer.cayden@gmail.com | (703) 209-0500 | clemmer-c.github.io

PROFESSIONAL SUMMARY

Mechanical engineering-focused high school student with hands-on CAD experience in Autodesk Inventor, Onshape, and SolidWorks, 3D printing and modeling skills, and a track record of entrepreneurial initiative as a self-employed business owner. Combines technical problem-solving with strong organizational discipline and bilingual communication in English and French.

EDUCATION

Thomas A. Edison High School

Alexandria, VA

High School Advanced Diploma, IB Certificates. Governor's Seal of Excellence, National Honor Society, Math Honor Society, CTE Certified. June 2026

EXPERIENCE

Lawn Care Business Owner

Apr 2021 – Present

Self-employed · Alexandria, VA

- Operate and maintain power equipment including mowers, trimmers, and blowers across residential and commercial properties
- Deliver full-service lawn care including mowing, edging, trimming, aerating, overseeding, and fertilizing for 5 ongoing clients
- Manage client scheduling, service planning, and basic accounting across a 4-year business generating \$4,000+ in revenue
- Monitor regulatory changes affecting business operations to maintain compliance

Soccer Referee

December 2025 – Present

LMVSC, Arlington, and VCSL · VA

- Enforce rules and maintain fair play across youth and adult competitive matches
- Navigate high-pressure interactions with players, coaches, and parents, de-escalating tense situations in real time
- Apply experience-based judgment to uphold game integrity under pressure

Summer Camp Volunteer

Aug 2023 – Aug 2025

Calvary Road Christian School · Alexandria, VA

- Transported and escorted program participants to and from activity locations and external trips
- Collaborated with fellow volunteers to maintain a safe and structured environment for all campers
- Guided campers throughout the program and enforced camp rules and regulations
- Coordinated equipment, decorations, and site resources to support a range of scheduled activities

PROJECTS

Radial Engine CAD Design

2025

Designer

- Designed a fully parametric radial engine model in Onshape, applying cylindrical constraints, revolutions, and system integration to model combustion engine fundamentals
- Extended the design to a radial configuration as an additional engineering challenge, deepening understanding of multi-cylinder engine architecture

Turbofan Jet Engine Assembly

2026

Designer

- Modeled a 23-part turbofan jet engine assembly in SolidWorks, coordinating mates and interfaces across the fan, compressor, combustion, and turbine stages
- Applied a precision section cut across one-third of the assembly to expose internal architecture for viewing, maintaining accurate part relationships across the cut plane

Inline Four Engine CAD Design

2026

Designer

- Modeled an inline four-cylinder engine in SolidWorks, designing the cylinder block, pistons, crankshaft, and valvetrain as individually mated components
- Configured functional internal components to interact mechanically within the assembly, reinforcing understanding of four-stroke engine kinematics

SKILLS

Technical: Autodesk Inventor, Onshape CAD, SolidWorks, 3D Printing and Modeling

Professional: Scheduling and Planning, Basic Accounting, Time Management, Interpersonal Communication

Languages: English (Native), French (Professional)

AWARDS & HONORS

- Public Health Youth Ambassador, GMU Certificate
- Chess Club Founder and Co-President, Thomas A. Edison High School
- Varsity Track and Cross Country, Distance, 4 Years
